

Spellbinder

As seen on the Disney Channel!

"Highly Recommended. A recreation of the 'Spellbinder Series' of books, the special effects and storyline are wonderfully recreated in this adaptation. Well made and dramatic, this series is a neat way to watch a successful science fiction book recreation in junior high to adult classes in English, writing, and science fiction."

-EMR Online Review

This is the exciting story of a teenager who finds himself accidentally marooned in a world parallel to his own, where the industrial revolution never happened and the people are ruled by Spellbinders, the only ones with a command of science. A thrilling mix of adventure and fantasy, the focus is on character and the capability of children and teens to undergo positive change and confront adversity using their wits and imaginations.

Produced by Film Australia & Polish TV.
